### Success on the Promotion and Tenure Trail

**Succeeding with New Expectations: New Associate Professor Orientation**  
*September 13, 11:30-1:30*  
Acoma A&B - SUB  
Becoming an associate professor brings new opportunities and expectations. Come learn about both! What opportunities do you now have, professionally and personally? What resources are there to help you switch research directions or try something new in your classes? How do you negotiate and manage your service load? What should you think about when evaluating your colleagues’ teaching? How do you write effective evaluations of promotion and tenure files? All of these and more come with being an associate professor.  
**Lunch provided**

**Mid-Pro: Now What?**  
*November 1, 12:00-1:30*  
TBD  
You’re more than halfway to applying for tenure and promotion! What steps should you take next? What resources exist to help you move forward in response to your mid-pro evaluation letter?  
**Lunch provided**

---

### Research Success Series  
*(Open to all faculty)*

**Making a Good Proposal Great with Better Broader Impacts**  
*September 27, 12:00-1:30pm*  
Acoma A&B - SUB  
Broader impacts enable a researcher the opportunity to expand their results and findings beyond the constraints of their academic field and to contribute to meaningful change in society. Come learn how to develop your Broader Impacts niche that not only fits your personality and research objectives, but also capitalizes on the creation of mutually beneficial partnerships with individuals and organizations working in a variety of relevant domains.  
**Lunch Provided**

**Research Proposals: From Idea to Submission**  
*October 25, 12:00-1:30pm*  
ADVANCE space- C&J 144  
How do you navigate your research path at UNM? Where are the resources and contacts? Come meet some helpful staff from the Faculty Research Development Office and Sponsored Projects to keep you moving along the path to funding success at UNM.  
**Lunch provided.**

**Integrating Computation and Data Management through the Entire Research Lifecycle**  
*November 15, 12:00-1:30*  
ADVANCE space-C&J 144  
Research projects increasingly demand access to computational resources beyond those that are available on an individual researcher’s desktop, and involve data collections that require systematic management, analysis and sharing. This session will provide an overview of the support and capabilities provided by UNM’s Center for Advanced Research Computing (CARC) and the Library’s Research Data Services Program (RDS) and provide an opportunity for researchers to discuss their particular needs around research computing and data management.  
**Lunch Provided**
